

Re: REPORTING GRADES TO TEACHER, additional info for Math 8/7 (version 7/4/2020)

All new Math families:

As with the actual HW & tests to fill out, Math 8/7 requires some additional processing that the other classes do not require. Specifically, you need to know how to report the FPT (Fact Practice Test) and Investigation grades (see earlier email for an explanation of these parts of the HW).

All grades are put into the light blue boxes.

The lesson (L1 – L120, white boxes) and test (T1 – T23, tan boxes) grades are input normally, in the colored boxes next to the lesson and test grade numbers.

You will notice that each next to lesson and test is the colored blank where the FPT (A-W, white and tan boxes) grade must be reported.

Report the “Investigation” (I1 – I12, purple boxes) grades in the colored box next to the correct number.

Also note that “Investigations” have no FPTs, so the FPT spot next to them is filled with “xxx” to prevent you from putting anything in there.
